

Note: This product is distributed on a "try-before-you-buy" basis. All features described in this documentation are enabled. The registered version does not insert a watermark in your generated Flash Flip Books.

About A-PDF to Flipbook for Mac

A-PDF to Flipbook for Mac is professional page turning software for Mac devices, Mac OS X Leopard, Mac OS X Snow Leopard, Mac OS X Lion, etc. This flip book maker provides a new way for you to show off your dull and still PDF files.

By converting PDF to flip page publication with impressive turn page effect, this program will help improve reading experience for your readers. Instead of reading continuous vertical pages, your readers can read the book by turning pages, just as what they do when reading printed editions.

Main Features

Import Settings

- Page range: You can import all pages or just import custom range pages.
- Page quality selection: There are 5 quality and size for you to output flipbook. High values produce better page quality but require more disk space and more time to download.
- Import bookmark: Import table of contents of the original PDF files.
- Import links: Generate original page links, web links and e-mail links to the flip book.

Batch Convert Mode

With A-PDF to Flipbook for Mac, you can batch convert multiple PDF files into multiple or a single flip book at one time. This useful convert mode will save you much time if you have large quantities of PDF to convert.

Optional Output formats

- HTML format turns it into a webpage for online viewing.
- Publish flip book in App format to view on Mac devices.
- Create mobile version that can run on tablet devices like iPad, iPhone, Android phones.

Multiple Languages

There are 10 languages for you to choose: English, Chinese, French, German, Arabic, Japanese, Greek, Hebrew, Italian and Portuguese. You can choose one as the default language or choose two or more to make languages switchable.

Customizable Features

1. Add logo and book title for the book to show your corporate identity.
2. Choose template from the built-in projects or customize a template by yourself to fit your book style.
3. Replace the background image with your preferred one.
4. Add sound file (MP3) as background music, and define sound loops.
5. Enable or disable the function buttons like Full Screen, Help, Print, Download,

Zoom, Search, (Social) Share or Auto Flip.

6. Add "Help Content File" (Image or SWF only) to show help info for your readers.
7. Zoom function and vectorial content ensure a clear display.
8. Allow sharing your flipbook via e-mail or social networks such as Facebook and Twitter.
9. Enable auto flip and set flip interval and play counts; whether to auto flip when start up.
10. Select flash font type for the page turning book.
11. Change and choose color for font, icons, background and toolbar to refresh visual effect.
12. Support multiple international languages and you can choose two or more to make languages switchable.
13. Define page thickness to make it feel more like physical book.
14. Show corner flip effect to remind readers that they can drag the corner to turn page.
15. Define book margins and proportions for the flash PDF flipbook.
16. Set right to left (for example, Arabic) or left to right reading mode.
17. Choose hard cover for the flash flip book.
18. Decide to open window in blank or self window.
19. Use Minime Style to view flip book in a small window with defined proportion; and readers can switch to full screen with a simple click.

Reader Experience

When your readers come to your flip book, they can experience the advantages of the page turn technology as well as your page flip book:

1. Experience realistic page flip effect as they do when reading real books.
2. Turn a hard cover of the flip book just like that of a real hardcover book.
3. Turn page in different ways: Drag the page corner, click on page shadow, slide mouse wheel, enter page number, click on page control buttons, and control with keyboard arrows.
4. Navigate through the flipbook with thumbnail and table of contents.
5. Zoom to view clear content or view flip book in full screen.
6. View the book with auto flip without turning page manually.
7. Enjoy the beautiful music while viewing book.
8. Share the flip book with families, friends and colleagues easily (via e-mail or social networks).
9. View the flip book anytime and anywhere with their iPad, iPhone, Android phones.

Quick Start:

1. Launch the program via shortcut ;
2. Click  to import PDF file;
3. Define parameters for PDF flipping book, such as logo, background, book proportion and

margins, and then click the "Apply Change" icon ;

4. Click "Convert to Flipping Book" icon  to enter into Output interface;
5. Choose Output Type from HTML, App and Make Mobile Version.

Interfaces:

Import Settings Interface:

1. Click button  to browse PDF file;
2. If you are not sure the file is the one you want to convert, click "Preview" to confirm;
3. Import All pages or Custom range pages (define range);
4. Choose Quick import mode to import only 10 pages to initial preview;
5. Select page quality from 5 quality and size to output flip book;
6. Enable "Import bookmark" to import table of contents of original PDF;
7. Import links (web links, e-mail links) of original PDF;

Template Selection Interface:

Click  **Classical** to enter into template selection interface as below:

There are 3 kinds of built-in templates for you to choose: Classical, Float and Spread. Each template contains different themes of different color and style design.

Custom Settings Interface:

You can customize the flip book via three settings: Tool Bar Settings and Flash Display Settings. Below we take Float Template as example.
